Hole Saw System

A faster, easier and smarter hole saw system

- 5x Faster than Normal Standard Hole Saws
- Rapidly Disperses Cutting Debris Through Wide Slots
- Integrated Arbor

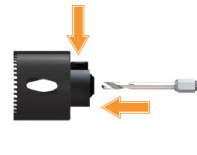

Rapid Core Eject 1/2 Inch

#41058

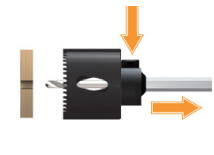

- Ejects cores at the push of a button!

1. Change diameter with one click

Quickly install or remove saw diameters. Just push the button to slide one hole saw off and slide another one on.

2. Drop out the core

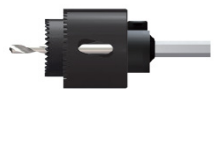

Simply push the button and slide the blade back to remove the plug. No screwdriver required.

3. Cut at an angle

Click and pull the hole saw back to extend the pilot drill's length enough to cut at an angle. Release to complete the hole.

4. Enlarge holes that were drilled too small

Use your hole saw as a guide to turn a small diameter hole into a larger one by using a wider diameter saw.
