EZ Install Toilet Bolts & Caps

#54477

- Heavy brass bolt kit attaches floor mounted toilets to standard closet flange mounting bracket
- Heavy brass "hi-torque resistant" bolts
- Secure Low Profile bolt caps
- Durable thermoplastic installation guides
- Labor saving design is ideal for high usage commercial and residential applications where a solid, secure, installation is required
- Anti-spin closet flange nut stays in place during install
- Unique installation guides make setting bowl quick and easy, even in confined spaces
- Heavy brass bolts do not require cutting
- Low Profile bolt cap securely attaches to bolt top and leaves an appearance that looks integral with the fixture

7" Cobra Pliers

#10820

- Plastic coated non-slip handles
- Box-joint design is highly stable because of a double guide
- Fast adjustment directly on the work piece, just position the upper jaw to the work piece, push button and move to close the lower jaw
- Guard prevents fingers from being pinched
- Special hardened teeth (approximately 61 hrc) provides low wear and a secure grip on surfaces

10" Cobra Pliers

#10818

See section 10 for more pliers and tools!

TOP-TITE STA-TITE Hinged Toilet Seats

Elongated White - Closed Front w/ Cover #62424

Round - White-Closed Front w/ Cover #62420

- Features two color-matched bumpers, color-matched plastic adjustable hinges with non-corrosive TOP-TITE® bolts and wing nuts
- TOP-TITE® - Installs with ease from the top of the seat, never loosens
- Adjustable Hinges up to 3/8" - The seat can be moved forwards and backwards to account for varying toilet bowl sizes and ensure the best fit possible

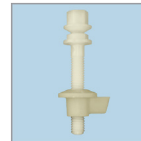

NO more loose toilet seats!

3/8" ADJUSTABLE HINGES

TOP-TITE STA-TITE®

NON-CORROSIVE BOLTS AND WING NUTS

Scan QR code for installation instructions.

The Top-Tite Stat-Tite hinge design on these toilet seats keep these seats firmly to the bowl for a longer period of time than your standard bolt system. From the TOP of the toilet seat just tighten the TOP-TITE STA-TITE with a 1/2 inch wrench or socket until the bolt head TOP-TITE STA-TITE bolt shears off.

Quad Close Trap Seal

#99152929	1-1/2"	#99410632	2"
#99475099	3"	#99410633	3-1/2"
#99475100	4"	#99152930	6"

- Minimizes evaporation, prevents sewer gas emission and diminishes backup of raw sewage
- Easy to install into floor drain rather than the plumbing system
- Reliable solution in protecting the trap seal
- Creates a watertight seal inside the drain hub, outlet piping, or throat of strainer
- Saves water and easier to maintain than a trap primer

Did You Know Best Carries?

1-1/2 Suds Control Assy #10500

The suds control device is a one way drain seal that fits into any sink strainer tailpiece, before the waste trap. It prevents "back-up" of waste, suds, and gas.

p. 8-16

Magnetic Door Holder

#65289 3"

- Plated diecast steel
- Satin nickel finish
- Heavy duty magnet for security
- Can be mounted vertically on the floor or horizontally on the wall
- Receiver with spring-loaded steel button, mounts to rear of door
- Serves as a door stop and wall protector

Wax Free Gaskets

#55528 3in Wax-Free Toilet Install Seal

#55527 4in Wax-Free Toilet Install Seal

#55529 Wax-Free Urinal Seal

- The clean and easy way to install a toilet
