## Megapro 15-IN-1 Stainless Steel Screwdriver #99382617

**Won't Rust!**

**TIME IS MONEY!** Stop wasting valuable time hunting for different tools. The 15-n-1 can replace numerous fixed head screwdrivers in your tool box.

- The Stainless Steel shaft is ideal for indoor and outdoor environments.
- The nickel plated bits are corrosion and wear resistant!
- Patented Pullout Bit cartridge makes it easy to find, change and store bits.
- The shaft opening serves as a 1/4" hex nut driver too!
- Made in the USA

## 15-IN-1 Tamperproof Screwdriver #10205

For more Megapro Drivers, see p 10-1!

## Extension Cord Safety Seal #10567

Scan the QR Code for more information!

**Protect outdoor electrical connections with the Extension Cord Safety Seal!**

The plastic housing prevents rain, snow, and mud from getting in, keeping connections dry. The seal also prevents cords from becoming unplugged. The case snaps around the point where the cords come together, and a rubber seal keeps out rain, snow and mud. An internal locking safety mechanism holds cords securely together. This water resistant case is a simple solution that will prevent shorting out and eliminate the chore of reconnecting cords that have been accidentally pulled apart.

- Cover for power cord and extension cord
- Keep electrical cords dry and together
- Ideal for temporary connections like power tools, illumination and holiday decorations
- Rubberized closures on each end make the extension cord safety seal easy to use
- Bright neon color perfect for marine use
- Protects outdoor power connections
- Prevents potential water damage or fuse tripping by sealing out water and snow.
- Don't risk blowing your fuse box or electrocuting yourself!
