Food Grade Silicone Lube

#97911 9.75 OZ

Want to maintain efficient operation of your food machinery without the worry of unsafe substances?

Use this Professional Food Grade Silicone Lubricant!

This non-toxic, medium viscosity, pure silicone is ideal for foodservice equipment. The lubrication prevents sticking and won't transfer to end parts. It forms a colorless, non-staining film that protects in most metal to non-metal applications. May be used safely on machinery in food production where petroleum products would contaminate.

*FDA and USDA approved

*Do not use in food preparation

Magnetic "Out of Order" Sign

Channellock Adjustable Wrench

Reversible Jaw
For work on bolts and round stock

Jaw Design
Precise jaw design grips tight the first time and doesn't let go

Measurement Scale
Measurement scales (in. on front - mm. on reverse) are handy for sizing nuts, pipe, and tube diameters

Adjustable
4 thread knurl & non-protruding jaws provide greater capacity; minimal head width improves performance in confined spaces

Angled Teeth / Jaw Capacity

- New reversible jaw grips tight onto pipes and rounded fasteners
- Greater jaw capacity supports larger nuts, bolts, and pipe

Construction
Chrome Vanadium Steel

#10447 - 8 IN
#10448 - 10 IN

Visu-Glow Fluorescent Gas Leak Detector

#99722

Visu-Glow uses its high-visibility fluorescent color to track down gas leaks even in dimly lit areas.

- Comes with a built-in dauber
- Temperature range:
15°F to 200°F (-9°C to 93°C)
- 8 fl. oz

Made in USA

Sealed Cartridge Regulators

Keep your drinking fountain running smoothly with these Seal Cartridge Regulators.

#77835
(Red)

77835 This cartridge regulator is used in stainless steel, push button bubbler heads. It controls the on/off flow and the amount of water pressure.

**Use for Elkay, Halsey Taylor, Oasis, and Sunroc*

#77853
(Green)

77853 & 77858 These cartridge regulators have a dual purpose. When pressed, they act as an on/off valve and allow the water to flow. When released, they stop the water flow. Once the water is flowing, these cartridges work as regulators that control how much water flows out of the bubbler head.

**For drinking fountains with a pushbar - use #77853*

**For drinking fountains with a pushbutton use #77858*

pg. 7-84

#77858
