Fire Crystals Drain Cleaner

#98661 16 oz

Say goodbye to grease, hair, and build-up in your drains with Best Plumbing's new Fire Crystals!

This powerful drain cleaner is easy to use and quick to activate, dissolving grime in just 60 seconds! More effective than a liquid cleaner, this professional-strength formula is embedded with orange crystals that are hot water activated. Fire Crystals can be used on septic systems, grease traps, and drains and will not harm plumbing fixtures or porcelain.

Harmful Or Fatal If Swallowed. Avoid Contact With Eyes, Skin, Mucus Membranes, and Clothing. Keep Out Of Reach Of Children.

Instructions

Drains – Let hot water run to warm lines, then slowly add one cup of Fire Crystals directly into opening. Let hot water run until Fire Crystals is dissolved. Let stand for one minute and then flush with hot water. For preventative maintenance, add 1/2 cup of Fire Crystals to drain once a month.

Grease Trap – Use 2 lbs. regularly per 100 gallons of capacity through any drain leading to a grease trap. Pour in dry and add enough hot water to dissolve Fire Crystals. Allow to stand overnight for best results.

Septic Tanks – Use 6 lbs. per 500 gallons of capacity for immediate results. Add 6 lbs. per year for continued prevention of build-up.
