MAY

Magnetic Fat Ivan Door Stop #67007

Secure, compact, and easy to use, this Magnetic Door Stop is the smart and convenient way to prop open a door.

Slide over any hinge to fully open the door or keep the door partially open by using the magnets to place the Door Stop directly onto the lipstrike. Made with corrosion resistant plastic and zinc plated steel for a long-lasting tool that can be used every day!

- Folds up to fit in pocket
- No damage done to the door or jamb
- Magnetize to the door for storage

Size (closed): 4" x 2" x 1"
Weight: 5 oz.
Color: Orange

Grime Boss Fresh Citrus (30 Wipes/PK)

#90006

Easily Removes: latex paint, caulk, oil and grease, adhesives, mud and dirt, stains, sealants, PU foam, joint compound, odors, and more!
Benefits: smooth side is gentle enough to clean hands, face, and arms while the rough side cleans stuck on residue and grime. Replaces rags, shop towels, pumice, soap and water.

- Ultra-moisturizing with vitamin E and aloe, uses no harsh chemicals
- Portable and small enough to keep in your tool box
- Moisture-lock lid keeps wipes from drying out

Size: 9.8" x 8.2"

RoofGuard

The roof drain that won't clog! RoofGuard eliminates leaks, meaning no more costly repairs caused by clogged drains from leaves, needles, and other debris. Replacement roof dome features a 19" diameter and a horizontal slotted, free area drainage design.

- Increases surface area up to 5x more than traditional drain domes
- Horizontal passageways allow debris to float on top, while water flows below
- Polyethylene Version features a removable top for access to the drain without detaching the body from the roof
- Should only require an annual inspection

#99153782 Polyethylene RoofGuard

Installation:

1. Clean and dry surrounding area, removing as much moisture as possible
2. Remove current drain dome strainer
3. Turn RoofGuard over and completely fill the attachment pods with an adhesive sealant
4. Flip RoofGuard back over and press firmly on top of the pods to ensure good adhesion

Use with: #61710 DuraLink 35 White 10.1 oz. Adhesive Sealant

#99153783 Cast Iron RoofGuard

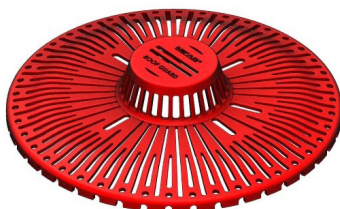

Comes with two packages of different bolting hardware to allow installation for any manufacturer.

Installation:

1. Remove existing drain grate
2. Replace existing bolts with new bolts (replace one at a time to avoid breaking membrane seal)
3. Put on adjustment nuts one inch above bottom
4. Lower DrainGuard onto correct slots (designed to fit any manufacturer's pattern)
5. Make sure DrainGuard bottom is 1/8" off the membrane
6. Place washer and nuts over top, tightening all the way down
7. Cut off any access material
