## KIBOSH™ LTD RAPID PIPE REPAIR The World's Fastest Pipe Repair™

#61641 1/2 Rapid Repair Clamp

#61644 3/4 Rapid Repair Clamp

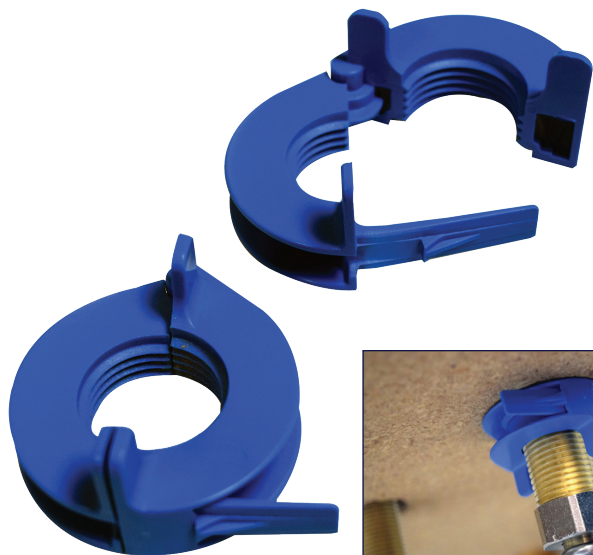

The Kibosh Rapid Pipe Repair Clamp is an instant and simple to use solution for Copper, PEX, PB, and Multilayer Water Pipes.

It is re-useable, can withstand 150 PSI and can even accommodate some leaking pipe fittings. Once fitted, the pipe will continue to function under normal pressures and temperatures until a permanent repair can be made.

- Excellent water saving and damage limitation device
- Can be fitted when the leak is still in full flow
- Once fitted, the pipe can continue to function normally — hot or cold!
- Can be fitted in tight spaces to clipped pipes and in the notch of a joint
- Can also be used to repair a frost damaged, or burst pipe
- Made from non-toxic materials
- Pressure/Temp Rating: 185° F @ 90 PSI, 70° F @ 145 PSI
- Keep device open and in packaging when not in use.

## Sinchnut

#99165171 (Pair)

The Sinchnut makes faucet installation quicker and easier. No more working upside down, straining back muscles, and endlessly spinning the faucet nut or locknut up the faucet shank in order to install a faucet.

With the Sinchnut, you can connect the supply lines to the faucet first, before you even put the faucet into the holes of your sink. Once the faucet and supply lines have been inserted into the holes of the sink, simply wrap the Sinchnut high up around the faucet shank and lock it in place with a click. Tighten it, just like you would an ordinary locknut, and you're done!

- Works on any 1/2" bathroom or kitchen faucet

# BEST FEATURED ITEMS

## GlovePlus Blue Heavy Duty Nitrile Disposable Gloves (BK/50)

- #10505 Med Blue Gloves
- #10506 Large Blue Gloves
- #10507 X-Large Blue Gloves

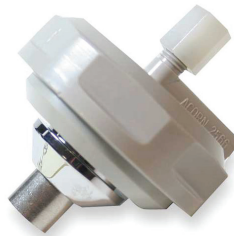

These 8 mil gloves feature textured fingertips, and a micro-roughened surface for a dependable grip. Once the highly elastic nitrile material reaches body temperature, it conforms to your hand for an exceptional fit. They feature an extended cuff to protect your forearms from splashes and help prevent liquids from running down the inside.

- Ambidextrous/Non-Sterile
- Beaded Cuff
- 100% latex-free, and powder free
- 8 mil (palm) thickness
- Passes viral penetration test (ASTM F1671)
- 12" Long

## Servomotor Test Button #31349

For use with lavatories, showers and combination pushbuttons. Allows you to disconnect the hose from the servomotor while in the chase. Simply hook up the "test button" and activate it. This eliminates the need for removing the inmate from the cell, and turns a two man job in to a simple one person task. Works with Acorn, Willoughby, Metcraft and Bradley. pg. 14-3
