*Purchase with Low Pro Locking Dome Strainer for extra protection against clogged drains

Sediment Bucket/Basket

#88875 7-1/2"
#88808 8"

PermaDrain's floor sink baskets provide an easy, quick, and clean way to discard food and foreign debris. Kitchen staff hose down floors toward floor drains and floor sinks, putting drains at high risk of clogging. These baskets can strain debris as small as rice, preventing the need to periodically shop vac drains due to accumulation of food particles over time.

- Drainage slots surrounding the outer edge allow liquids to drain immediately regardless of debris inside the basket
- Makes cleanup easier on employees, therefore eliminating kitchen staff from throwing away floor sink baskets
- Center handle above the outside rim and waterline, allows for easy removal of the Safety Basket while keeping hands clean and safe.
- The poly-alloy material is heat, impact, and chemical resistant, which allows it to be used under steam kettles and dishwashers.

*Fits PermaDrain Sediment Bucket/Baskets for low profile protection against debris in drains 

Low Profile Locking Dome Strainer

#89081 3"
#89082 4"

The Low Pro Locking Dome Strainer is the ultimate strainer for floor sinks and mop sinks! This strainer blocks debris while providing ample surface area for liquids to drain regardless of the amount of debris in your floor sink or mop sink.

- Kit includes a Cross Strainer, a Low Pro Dome Strainer, and one high security, stainless steel screw with a T#27 high security insert bit.
- Low Pro design allows it to fit in areas where a traditional dome strainer would not and is a better alternative for protecting trench drains and floor sinks where grate covers are required to prevent trip hazards.
- Protects mop sinks by replacing flat strainers that employees often remove and discard.

Magnetic "Closed for Maintenance" Door Banner

English/Spanish
#61029

An innovative way to temporarily close off a room or space, this door barricade prevents patrons from walking through an opened doorway, so staff can stay hard at work. These door banners are made to fit the standard 36" wide metal door frames found in commercial facilities. The banners are lightweight, easy to use and connect

in seconds. Exceptionally strong magnets are integrated at each end, so there's no twisting, pulling or stretching involved.

- Fabricated with durable, rot-resistant nylon materials
- Conforms to OSHA standards
- Fits up to 51" wide doorways

BEST FEATURED ITEMS
