Flood Avert Bags

The Smarter Way To Keep Water At Bay! Just add water, and these FloodBags™ expand to the same size and weight of standard sandbags. No shoveling or hauling needed. **DefenderBags™** (17.5"×21.5"), **Boombags™** (53"×10.5") and **Flexibags™** (9'10"×6.25") can all be filled to capacity by spraying or soaking in water. The **Floodscreen™** is a 9'×10" screen that protects wider openings such as doorways when used in conjunction with the bags to double your defensive efforts against damaging flood water.

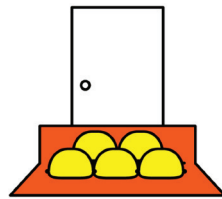

3 MINS

Soak FloodBags for 3 Minutes

Install FloodScreen against entrance

Secure with FloodBags to create watertight seal

Utility Box #17751

Quad Close Trap Seals

#99152929 1-1/2" | #99410632 2" | #99475099 3"
#99410633 3-1/2" | #99475100 4" | #99152930 6"

Creates a watertight seal inside the drain hub, outlet piping, or throat of the strainer.

The purpose of the trap seal is to minimize the evaporation of the trap seal for the floor drain. It will open to allow the flow of drainage and close when there is no flow. The trap seal is for use in the floor drain outlet or the throat of adjustable strainers.

pg. 8-27

Did You Know Best Carries ...

Gilmour 3/4 ID x 25 Ft Heavy Garden Hose

#66874
